

FOR IMMEDIATE RELEASE

Global Vision Technologies Hires Mark Sharp as New Director of U.S. Sales

Atlanta, GA / St Louis, MO – January 10th, 2010 – Global Vision Technologies, Inc., (GVT) a leading provider of tailored [child welfare software](#), [patient registry software](#) and e-learning solutions has announced the addition of Mark Sharp as their new director of U.S. sales.

Sharp has 20 years of sales, business development & consulting experience. He has worked both in the private and public sectors managing enterprise and strategic accounts and brings a strong background in working with GSA (Federal & State Agencies).

“Mark’s breadth of knowledge and hands-on consultative experience is an outstanding addition to the GVT team,” says George Ritacco, Executive Director Client Services at GVT. “Mark has extensive experience in consultative sales, e-learning and a proven track record of delivering results and value to clients from many different industries. As we continue to strengthen our [solutions for child welfare](#), which include [web-based health and human services case management systems](#) ([FAMCare](#), [ClinicalPURSUIT](#)) with built-in e-learning tools, I am confident that Mark will add significant value to our clients.”

Sharp has recently joined GVT from a private UK firm specializing in e-learning tools. Sharp held positions of increasing responsibility including VP of North American Sales and was directly responsible for developing the company’s GSA and public sector relationships.

About Global Vision Technologies

GVT is a provider of world-class information management solutions for child welfare and human services case management, patient registries, and e-learning management. The company strength is derived from its ability to rapidly deliver tailored, cost effective and proven web-based tools that save organizations time and money by improving time to ramp up, while reducing overall training and support costs.
